## High Efficiency Lighting and EV Charging Stations

Aladdin Airport parking garage in San Diego, CA is one of the busiest airport parking lots in the nation run by ABM.

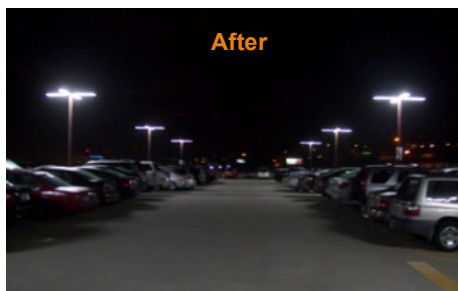

Built in 1987, existing lighting was inefficient and outdated and required frequent maintenance with special equipment. Total project cost was \$127,910 with a \$33,312 utility company rebate.

- Annual energy savings of \$42,813
- Simple Payback 2.21 years
- Estimated ROI 45%

ABM Energy and ABM Parking Services (formerly Ampco Parking) were able to deliver a comprehensive solution that was completed with no money out of pocket and had immediate cash flow upon completion.

Maintenance intervals increased 6 times resulting in dramatically reduced costs.

Light levels on rooftop and exterior walls were increased.

Interior light levels were maintained with ½ the lamp lineal footage by going from 8ft lamps to 4ft lamps.

### CHALLENGE

- The parking garage had poor light levels, high utility bills and numerous safety concerns
- They wanted to install EV charging stations
- Maintenance on rooftop pole lights and wall lighting had to be performed frequently and required specialty high reach equipment
