

Solving Top Challenges for Warehousing and Distribution Centers

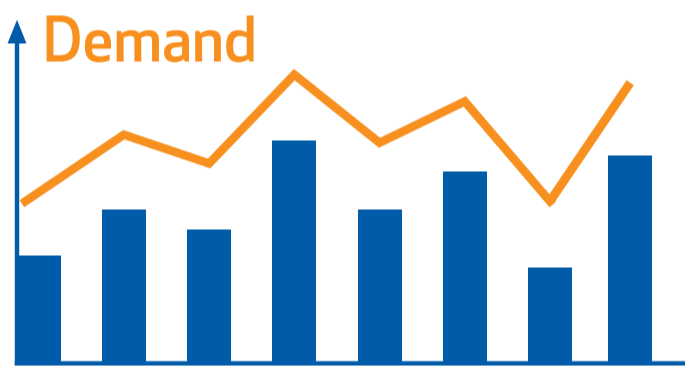

With Facility Services that Deliver

Your customers have high expectations. They want timely, undamaged deliveries, but they have no idea of the delicate balancing act you perform to ensure they receive the level of service they expect. In order to meet their needs, you need support in dealing with your biggest challenges.

Labor Is a Constant Concern

Labor costs account for **50-70%** of the average company's warehouse budget. Top labor issues?

- Finding and keeping qualified/skilled/dependable workers
- Increasing workforce productivity
- Controlling labor costs

Demand Fluctuations Are a Challenge Too

64% of supply chain executives say that being flexible enough to respond to changes in volume is a top concern.

And Safety is a Continuous Concern

\$36,894 Average cost of a workers' compensation claim.
