Electrical & Lighting

Did You Know?

Electric lighting is responsible for over 1/4 of the energy used in U.S. commercial buildings

The right lighting and control system can reduce building energy costs by up to 75%

Without proper maintenance, light levels degrade by up to 50% over time

LED provides 70% more lumens per watt than existing technologies.

We service and maintain 40,000+ parking lot lights & poles

We help 1000s of property managers see operating & energy costs in a new light with LED retrofits

ABM lighting solutions help property managers control costs, increase efficiency, improve safety & enhance the tenant/occupant experience

ABM is a CALCTP certified Acceptance Test Employer who can submit all mandatory Title 24 commissioning reports

Lighting and electrical infrastructure is not just a maintenance cost, but can be a valuable competitive business asset

Our lighting experts help you qualify and receive government and utility company rebates & credits that help pay for the project

ABM is a U.S. Green Building Council Member, EPA Energy Star Partner & NETA Certified

You can count on ABM for all your electrical & lighting needs
