

Lighting Assessment

Lighting Assessment Questions

1. Does your facility currently have fluorescent or high intensity discharge lighting (*exterior or interior*)?
2. Are lights coming on too early or too late or staying on 24 hours in areas where it isn't warranted?
3. Do you know how much energy is being wasted regarding lighting?
4. Do you know how much money/time is being spent on lighting maintenance?
5. Is there visible rust on your parking lot poles?
6. Are you thinking about providing or acquiring an Electric Vehicle Charging Station?

If you answered yes to any of these questions, please call us at **877.546.2463** or visit [ABM.com/Electrical](https://www.abm.com/Electrical) for a free assessment.
