

# How Are Airports and Airlines Putting Health First?

## Enhanced cleaning methods help protect travelers and team members.

You can put measures in place now to clean and disinfect shared spaces following recommendations from U.S. and global health and safety organizations.

All eyes are on the hygiene of shared spaces. You can help travelers build confidence with clear, visible, and detailed protocols. Our **EnhancedClean™** program is already helping airports and airlines to:

- Upgrade to electrostatic disinfection spraying
- Match cleaning and disinfection frequency to traffic
- Target high-touch surfaces

**Protect**  
your essential  
workforce

**Reassure**  
travelers that  
their well-being  
is your priority

Airport Facilities | Transportation Vehicles | Employee Areas & Break Rooms | Aircraft Cabins

As travel demand changes and consumer behavior evolves, we can help you meet the health and safety needs of your operational strategy with:

- Decades of mission critical cleaning and hospital disinfection experience
- 50 years supporting aviation clients

**Reach out to your local ABM contact or call 866.624.1520 and press 3.**  
**We're here to help.**
