

LET'S STAY

HEALTHY TOGETHER.

To better protect students and teachers in your community, and their families at home, your school has upgraded their cleaning and disinfection with our EnhancedClean™ program. The following measures are being taken to disinfect shared spaces in your schools on a frequent and ongoing basis.

How Your Schools Are Doing Disinfection Differently

Trained + Certified

EnhancedClean team members working in your school are Certified Disinfection Specialists.

Our certification process requires testing, observation, and verification of operational knowledge.

Our experts visually confirm our disinfection specialists can demonstrate proper use of tools, processes, and protective equipment.

- Our Level 2 Certification takes 5 days.
- Our Advisory Council includes infection prevention and industrial hygiene experts.
- Our Certified EnhancedClean Facilitators keep training in step with official guidance and best practices.

Standard Operating Procedures + Upgraded Disinfection Protocols

We identify high-touch surfaces and increase the frequency of cleaning and disinfection for those high-touch surfaces.

- EnhancedClean disinfectants must be rated for emerging pathogens and EPA-approved.
- We have implemented broader disinfection protocols beyond high-touch points on a periodic basis.

Our specialists are trained in social distancing and always wear personal protective equipment (PPE) to ensure their actions and interactions within shared spaces protect the health of everyone around them.

- We have a new health screening protocol to help prevent people from coming to work sick.
- Our disinfection team members always wear the appropriate masks, gloves, and other protective equipment in accordance with CDC guidance.

Service + Logistics Support

ABM is well-positioned to be first in line for products from our supply chain network.

We've partnered with your school leadership to bring students and teachers together in a safer, healthier learning environment.

We're Doing Our Part

Our team members have committed to clear health and safety practices as part of their certification. Our EnhancedClean program can also provide signage to help staff, teachers, and students remain aware of the practices we can all follow to stay healthy together.
