## Compare Your Disinfection Program and Your Provider with ABM

Selecting a disinfection program today is a thorough process that calls for a depth of detail once thought to be unnecessary. Knowing what to expect from your disinfection program and service provider will make all the difference in satisfying your search and your facility's needs.

Keep these key points in mind when selecting a disinfection program and forming a partnership with a service provider. We encourage you to use the following comparison checklist to see how other prospective providers and disinfection programs compare to ABM and our EnhancedClean program. We're confident you'll see the difference.

Key Points	ABM EnhancedClean	Current or Prospective Service Provider
Does the company offer a formal disinfection program with documented processes and procedures?	<input checked="" type="checkbox"/> Yes ABM's EnhancedClean is a three-step approach that delivers healthy spaces with a certified disinfection process. Special partnerships with experts in the fields of infectious disease prevention and industrial hygiene provide guidance on shaping the program's standard operating procedures.	<input type="checkbox"/> Yes <input type="checkbox"/> No
Is the disinfection program certified by a qualified authority on infectious diseases?	<input checked="" type="checkbox"/> Yes The members of ABM's Expert Advisory Council provide independent, third-party guidance to adhere to health and safety protocols. The results include a continued effort to maintain consistent, high-quality standard operating practices; the ability to offer clients the latest equipment and technologies; equipping team members with best-in-class training; and a certified, proprietary program, EnhancedClean.  ABM continues to follow the most up-to-date safety, infection control, and cleaning protocols recommended by global experts from the Center for Disease Control and Prevention (CDC), the World Health Organization (WHO), the Occupational Safety and Health Administration (OSHA), and the National Health Service (NHS).	<input type="checkbox"/> Yes <input type="checkbox"/> No
Are there training and certification programs for the staff performing the disinfection work?	<input checked="" type="checkbox"/> Yes ABM has developed an internal certification program to ensure absolute training comprehension and consistent program delivery. Online learning modules complement in-person training on the proper use of PPE, disinfectants, equipment, and more. A highly specialized level of training is given to those team members who will be using electrostatic sprayers and other newly adopted disinfection methods. Team members must pass both a written and field test demonstrating the ability to properly perform tasks before obtaining certification. Training is updated as guidelines evolve and new findings come to light from the CDC, WHO, OSHA, NHS, and additional world health authorities.	<input type="checkbox"/> Yes <input type="checkbox"/> No

Key Points	ABM EnhancedClean	Current or Prospective Service Provider
<p>Does the program use EPA-registered disinfectants qualified for use against SARS-CoV-2?</p>	<p><input checked="" type="checkbox"/> <b>Yes</b></p> <p>The EnhancedClean program uses only EPA-registered disinfectants qualified for use against SARS-CoV-2 (as certified via List N, the EPA's list of approved disinfectants for COVID-19) and the most commonly found pathogens. These disinfectants are utilized for high-touch point disinfection and through specialized equipment such as electrostatic sprayers for broader disinfection.</p>	<p><input type="checkbox"/> Yes</p> <p><input type="checkbox"/> No</p>
<p>Is the company's supply chain dependable?</p>	<p><input checked="" type="checkbox"/> <b>Yes</b></p> <p>ABM's procurement team proactively employed a pre-buy of key products for the EnhancedClean program. ABM's size and scale has been leveraged to lean on strong partnerships with manufacturers and distributors.</p>	<p><input type="checkbox"/> Yes</p> <p><input type="checkbox"/> No</p>
<p>Will proper communication be delivered to our building occupants?</p>	<p><input checked="" type="checkbox"/> <b>Yes</b></p> <p>Occupant communication signage helps introduce and reinforce social distancing, handwashing, sanitizing, and additional preventative measures. Signage materials include floor and mirror clings, desk cards, entryway signs, tent cards, and more. These measures make it clear that you, as the facility representative, are taking the appropriate steps to ensure a healthier environment.</p>	<p><input type="checkbox"/> Yes</p> <p><input type="checkbox"/> No</p>
<p>Is the company staying on top of the latest innovations and technology?</p>	<p><input checked="" type="checkbox"/> <b>Yes</b></p> <p>Innovation plays an important role in protecting both facilities and occupants. ABM is continuously monitoring the latest advancements and recommendations for reducing touch point frequency and viral transmission with hands-free doors and faucets, evidence-based testing, UV lighting, and more emerging technologies.</p>	<p><input type="checkbox"/> Yes</p> <p><input type="checkbox"/> No</p>
<p>Will the company help formulate a reentry plan?</p>	<p><input checked="" type="checkbox"/> <b>Yes</b></p> <p>The program begins with a comprehensive site assessment using detailed checklists for facility reentry. Your facility's specific disinfection needs will be addressed; the site assessment is a check-up of your entire facility, including janitorial, HVAC and mechanical, engineering, lighting, power and electrical, parking, and landscaping operations. Our expert teams will take a holistic review of your building, advising on whatever else your facility might need to ensure a safe return.</p>	<p><input type="checkbox"/> Yes</p> <p><input type="checkbox"/> No</p>

Key Points	ABM EnhancedClean	Current or Prospective Service Provider
Does the company ensure adequate staffing?	<input checked="" type="checkbox"/> Yes ABM has developed a robust talent acquisition plan to handle the increased labor needs of facility re-openings and the EnhancedClean program. The findings from your specific EnhancedClean site assessment will determine an accurate number of needed employees for your site. ABM's large talent pool already operates in over 300 metro areas.	<input type="checkbox"/> Yes <input type="checkbox"/> No
Is there an employee safety training program?	<input checked="" type="checkbox"/> Yes Safety is a cornerstone of ABM operations. Regular and consistent safety training is part of ABM's ThinkSafe program. We support our employees through direct onsite training, web-based safety training, and customized site-specific training. Our safety training program is designed to meet or exceed OSHA requirements and incorporates best practices from organizations such as the National Safety Council, National Fire Prevention Association, and the American Red Cross.	<input type="checkbox"/> Yes <input type="checkbox"/> No
