

## Industrial and Manufacturing Engineering Services

In today's manufacturing environment, efficiency is the name of the game. To prevent unplanned downtime, your equipment and facility must operate at their best, all the time. With engineering services from ABM, you can count on us to keep your facility running optimally.

We provide you with highly skilled maintenance staff armed with the latest technology, training and support. We leverage our wide array of resources to drive operational efficiencies and waste elimination to improve your bottom line.

### Our Services

We provide onsite, full-time engineers for the following services:

- General Maintenance
- Preventive/Predictive Maintenance
- Reliability Centered Maintenance (RCM)
- HVAC, Mechanical & Electrical
- Plumbing, Carpentry & Locksmith
- Maintenance, Repairs & Operations
- Handyman Services

### Benefits of ABM Facility Services

- We provide onsite managers who get to know your facility and provide accountability and oversight.
- We offer more than just engineering; integrate multiple facility services with us to operate more holistically and streamline your vendor relationships.
- Through our ThinkSafe program, we promote a culture of safety with training, visual inspections, and proper documentation protocols.
- We self-perform our services to deliver the highest level of expertise.
- Our industrial and manufacturing expertise is extensive – we work with more than 700 manufacturers nationwide.

### Did You Know?

Our programs and operating efficiencies can reduce your costs by 10% or more.

ABM services more than 2 billion sq. ft. of industrial and manufacturing space daily.
