

Electrical Power

Services Offered

- Electrical Power System Reliability Testing & Maintenance
- Switchgear, Breakers, Transformers, Automatic Transfer Switch, Motor Control Center, Power Distribution Unit
- Engineering, Arc Flash, Short Circuit/Coordination & Power Quality
- Infrared Scan & Partial Discharge Surveys
- Emergency System & Personnel Safety Training

What's a Good Lead

- Electrical equipment is in poor visual condition and appears old and obsolete
- Electrical rooms are cluttered and there are stock piles of old spare parts in storage
- No NFPA 70E stickers on panels
