

# Providing Transparency Through Work Validation and Reporting

## Proprietary Digital Cleaning Log from ABM

### BACKGROUND

Service visibility and transparency are more important than ever. We understand that you need reassurance that your space and your people are taken care of. ABM's Digital Cleaning Log can help.

Our Digital Cleaning Log is a proprietary tool that ABM has developed to capture, archive, and report on the cleaning being performed. As our team members perform work, they document the work performed through our digital application. Team members simply take a picture of a QR code and specify who performed work, what services were performed, and when the cleaning was performed.

So far, pilots have been successfully implemented in manufacturing, education, and office environments.

### QUICK STATS

16  
**leveraged sites**  
sites nationwide

1,680  
**average logs**  
per day

160  
**phones** to enable  
submissions

## CASE STUDY FROM IMPLEMENTATION

### Goal

To enable accurate data and reporting of servicing across all sites in the portfolio with detailed logs of specific tasks performed at each site for easier oversight.

### Outcomes

- Further **empowered central management of servicing** across the national footprint
- Provided robust data around servicing performed, **enabling weekly data-driven discussions around servicing**
- Allowed full visibility into daily servicing tasks, **providing comfort that effective cleaning programs are being delivered**
